## Work Experience

- Software Architect/Developer** 2007 - PRESENT  
Trimix - Córdoba, Argentina  
Software architect, full stack developer and technical saler mainly focused on software development and Oracle or Redhat products. I also worked in Trimix product definition, design and development.
- Software Architect/Developer** 2006 - 2007  
Innevo - Guadalajara, México  
Worked as software architect and developer of a migration project from AS/400 Cobol software to IBM WebSphere environment with Java J2EE.
- Software Architect** 2006 - 2006  
Endesa - Sevilla, Spain  
Worked as software architect and developer of a migration project from AS/400 Cobol software to IBM WebSphere environment with Java J2EE. I was part of a big group of architects all around the world. Our goal was to research, analyze and define the best combination of technologies.
- Owner** 2005 - 2006  
B-Inside - Córdoba, Argentina  
Owner of this software company startup. Most of our projects were for two main clients. CTI Móvil (now it's called Claro), one of the biggest telecommunication companies in Argentina and Siemens - Itron.
- Manager** 2001 - 2005  
Lempert - Córdoba, Argentina  
Started in this company in a recently created area called Solutions Architecture. This area was focused on learning and researching new technologies. I learned many technologies and products until I became manager of the e-Bussiness Area.
- Bachelor in Computer Science** 1997 - 2001  
Blas Pascal University - Córdoba, Argentina (March 1997 to June 2001)
